

SPOTLIGHT ON:

Briteclean

Paul Ormrod founded Briteclean in 2010 working with his family to provide domestic cleaning services to homes in Milton Keynes. Since then the business has expanded and grown, with more cleaning services added and more work done for commercial customers. Always, the philosophy behind the business has been that prompt cleaning and maintenance saves you money by reducing the need for replacements.

Through the winter it's very easy to dash from your car to your front door, ignoring the garden and the outside of your home. However with Spring approaching we become more aware of what's going on outside. Your drive, paths, patio and decking are covered in grime, moss and slippery green algae. Briteclean have specialist equipment to remove this efficiently.

Look up, are your gutters full of last Autumn's leaves and moss? Blocked gutters overflowing can cause expensive damage to your walls. Whilst it's tempting to ignore what's out of sight, Briteclean have a pole and camera system allowing them to film what's in your gutters both before and after cleaning.

If you have a conservatory, whilst the windows may be easy to clean, the roof can be much more challenging. Again Briteclean have the correct equipment to safely and effectively remove the dirt to let that Spring sunshine flood in.

Inside your home, Briteclean provide both wet and dry carpet cleaning services and can advise you on the best system to use in your circumstances. They also clean ovens.

Briteclean are contracted by several local letting agents for end of tenant cleans, and have restored new life to many a messy oven,

grubby kitchen or grotty bathroom. They also provide office cleaning services.

If you are looking for a one-off clean or something more regular, Briteclean are truly passionate about cleaning and look forward to making your environment a cleaner place to live in.
