

## HELPING YOUR WINTER STAY WARM

Firewood Fuel is celebrating over 1 year in business and we would like to celebrate this with you. We are a family run business and we pride ourselves on providing the homes of Milton Keynes & surrounding areas with premium Kiln dried Ash hardwood. Our Kiln dried logs burn hotter than seasoned logs as they contain less moisture, which means less energy to burn off residual moisture and more energy converts into heat.

Kiln dried logs are much more efficient as the higher temperatures generated means that everything is burnt, even the gasses released by the wood. Seasoned logs which give a cooler fire, gasses would simply escape up the chimney.

Kiln dried logs are also more economical because they burn hotter and you use less of them to achieve the same heat output as your seasoned logs.

Finally they prolong the life of your appliance as the higher temperatures burn off the water and the sap remaining in the wood which results in it not building up on the inside of your appliance as tar, which over time can rust your appliance leading to a loss of efficiency.

If you haven't already tried Kiln dried hardwood we would like to offer throughout January £20 off every bulk bag and £10 off every Barrow bag. Not only will you receive premium kiln dried logs you will also receive one of our special loyalty cards where you have the opportunity over time to receive 50% off bulk bags or a FREE barrow bag.

To keep extra warm throughout January and take advantage of this special offer give us a call on 0800 8620863 or alternatively 07958 800081 to place your order. Please mention this advert when you order. If you prefer to email you can do so at [info@firewoodfuel.co.uk](mailto:info@firewoodfuel.co.uk)
