

Samantha Jayne Giles

Fine art portrait
and family lifestyle
photography

Magical vintage wall art for your family home, let me create a unique piece of art featuring your own children.

I have an absolute love of photography and child portraits, I spend hours editing and turning children in to timeless works of art. I have a Distinction in Advanced Photography and my published work has been recognised worldwide and is award winning.

Each child image is edited to uniquely capture

their very essence and beauty. The day will be relaxed and fun, something you all will remember forever. During our pre session meeting I will discuss clothing, hair and the type of outcome you wish for. We'll also talk about location, especially if it's summer as it's great to get out in the natural light and really create some vintage magic.

Beyond the lens I am a wife, mother and owner of 6 crazy looking chickens! I drive a big ol' red Landrover Defender and like singing!

I am passionate about creating beautiful portrait photography and unique family lifestyle photos. But more than that - much more than that - I am ardent about telling stories of happiness and laughter; of love, family and warmth; of loved ones, siblings and parents. And all with a little drop of my originality.

Whether you're looking for a unique piece of wall art, which captures the essence of your very own family story or a precious lifestyle book to look back on and show generations to come I'd love to hear from you...
